HOT LIST

The second in our series where we take a look at what's new and what's now in...

DESIGN

METAL AS ANYTHING

Precious metals are being used in contemporary jewellery design in conjunction with alternative ideas and expressions to create pieces that are more than just passing fads. Sterling silver and 18 carat gold are combined with bronze, steel and cut stones in unusual shapes, brilliantly fusing craftsmanship with creative expression. The bracelet above, by Brisbane designer Barbara Heath, retails at \$1000, from NOKO, The Australian Designers' Gallery, 2 Bay Street, Double Bay, Sydney.
